

**Media** - the **enemy** on the mountain is the Hitties (represent bad news). The **principality** over it is Apollyon (destroyer). Those who have **significant displacing authority** are evangelists. The **basic mission** is to fill the airwaves with the "good news." The **revelation key** is blessing.

## **Media Prayer**

Lord, we bring the media mountain to you. Your word says that with You nothing is impossible. We come with expectancy that You can change the media's message from deception and lies to Truth.

Many people in the media hold celebrity status and know You as Savior and Lord. Strengthen them to remain steadfast in their faith, not yielding to temptation or compromise. We pray also for the lost who work in film, stage, music, television, print and more. Bring them to repentance and the renewing of their minds. Give them a hunger for Your Word. Open their hearts, minds, and ears to discern the events of our day and present them with balance, integrity, and truth.

Your Word says the King's hearts are channels of water in Your hands and You turn them whichever way You desire. According to Your Word, Lord, we declare that the Kings of media will be turned by You to broadcast truth without negative embellishing. Twisting of truth, STOP IN THE NAME OF JESUS!

Psalms 18:39 says that You arm Your people with strength for battle. You have subdued those who rise up against us. Cause us to rise up in faith and pray unceasingly until we see the media and its message transformed for Christ! Remind us often to fight the battle with Your weapons. Remind us that the media is not the enemy. We thank You that we enjoy media freedom in our nation. Help us affirm the work of the media wherever we can in this strategic area.

Father, forgive us for all the ways we have failed to communicate Your character and will. We pray that those who have authority to influence through media will be convinced of their tremendous responsibility and will even "speak as the oracles of God." We pray for an increase of true and edifying media communication. We ask You, Father, to call the media to report truthfully in matters of family, sexuality, marriage, and all human relationships. We ask for grace to hold ourselves to a high standard of verification communicating nothing for the sake of sensation or self-promotion.

In the name of Jesus! Amen.
